Highlights of the quarter

1. **Solid quarter results despite FX headwinds, resulting in year-on-year EBITDA growth.**
2. **Significant run rate of cost savings already deployed. 1.8 percentage points increase in Adjusted EBITDA margins despite tax increases and significant FX headwinds (resulting in a reduced weight of Argentina in the mix).**
3. **Strong online revenue and sports betting trends continue.**
4. **Obtained local financing in Uruguay and Panama to partially offset cash requirements to repay existing local debt balances (mainly in Mexico and Uruguay).**
5. **Despite acute devaluation of the Argentine peso in the second half of the year, Codere still expects to achieve year on year growth (Adjusted EBITDA of EUR 280-285 mm), but final numbers will depend on the evolution of the Argentine peso until year-end.**
6. **Despite the Argentine FX and macro situation, our financial situation is completely healthy, we are able to continue to finance and deploy our growth projects and our current total liquidity is EUR 157.8 mm (including our availability under the Super Senior Revolving Credit Facility → EUR 95 mm – EUR 16.6 mm = EUR 78.4 mm).**
